## Education

### KIET GROUP OF INSTITUTIONS

*Master of Computer Application*

**November 2022 – August 2024**

*Delhi-NCR, Ghaziabad, Uttar Pradesh*

### SCHOOL OF MANAGEMENT SCIENCES

*Bachelor of Computer Application*

**August 2019 – August 2022**

*Lucknow, Uttar Pradesh*

## Technical Skills

**Languages:** TypeScript, JavaScript, Java, C#

**Libraries/Frameworks/Database:** Angular, Material, ASP.NET, SQL Server

**Other:** Version Control (Git/GitHub), Unit Testing (Jest), Azure

**Links:** [GitHub](#), [Portfolio](#), [LeetCode](#)

## Experience

### BRAIN TECHNOSYS PVT. LTD. | *Software Engineer*

**January 2024 – Present**

*Jr. Software Developer (Angular, Laravel)*

*August 2024 – Present*

- Leading frontend development for a live project, focusing on creating, testing, and refining dynamic features in Angular.
- Coordinating closely with backend teams to align frontend functionality with .NET API integrations, ensuring end-to-end coherence.
- Conducting unit tests using Jest to verify feature stability and coverage.
- Played a key role in enhancing Sentrیدocs through feature development, bug fixing, and performance optimization to improve user experience.

*Software Developer Trainee*

*January 2024 – August 2024*

- Gained hands-on experience with Sentrیدocs during the initial development phase, building core frontend features with Angular.
- Developed and refined the frontend for a live chat system within another project, enhancing real-time communication functionalities.
- Supported the company's lead management system by implementing new features and maintaining existing ones.
- Built Eshopper, a comprehensive e-commerce platform, from scratch using Laravel, handling both user and admin sections.

## Projects

### SENTRIDOCs | *Angular v16, .NET*

**June 2024 – Present**

- Refactored code for reusability across multiple components, enhancing maintainability and consistency, and implemented comprehensive test cases to ensure quality and reliability for U.S.-based clients.
- Added dynamic features like customizable login pages with color themes for user and tenant attraction, optimized mobile responsiveness with touchpoint buttons and camera access, and developed various CRUD functionalities tailored for user needs.

### LEAD MANAGEMENT | *Laravel, JavaScript*

**April 2024 – June 2024**

- Developed advanced filtering capabilities for multiple conditions on the same page using AJAX, and implemented a CSV export function to streamline data management.
- Enhanced overall user experience by reducing data errors and improving interface responsiveness, leading to increased efficiency and satisfaction.

### E-SHOPPERS | *Laravel, JavaScript, MySQL*

**February 2024 – April 2024**

- Designed and built a fully functional e-commerce platform from the ground up, complete with secure user and admin sections.
- Ensured seamless operations by integrating comprehensive features for inventory management, order processing, and customer engagement.
