SUMMARY

Passionate and enthusiastic **Software Developer** with solid experience from a **6-month hands-on internship**. Skilled in building user-friendly, scalable applications using modern technologies like **JavaScript**, **TypeScript**, **Angular**, **React JS**, **Node JS**, and **Laravel**. Eager to bring problem-solving and **full-stack development** skills to a collaborative and growth-oriented team.

EXPERIENCE / INTERNSHIP

Software Developer Trainee | *Brain Technosys, Noida*   **January 2024 – August 2024**

- Took ownership of the frontend development for a **CI/CD document management system**, a customizable **multi domain site** using **Angular**, **Material**.Designed admin functionality **to create and manage custom loan service domains** and a **role-based modules**.
- Enabled seamless integration of new customer sites through an admin portal, implemented **Jest tests**, and monitored **Azure environments** to ensure production reliability.
- Developed **PMS (Project Management System)**, a **full-stack Laravel application** with **role-based access**, **daily status reports**, **task management** and deadline tracking, reducing project turnaround time by **30%** and enhancing project collaboration and workflow management.
- Contributed to a **restaurant management** and food guide app **Frontend (React Js)** Implemented **react-router-dom, Redux**,and developed a comprehensive **Restaurant management panel and Admin Panel** using performance patterns such as **lazy loading** and more.
- Developed **Backend** functionalities in **Node JS**, including maintaining restaurant view count, **developing APIs** for restaurant analytics, and implementing features for user preferences and most visited restaurants.

PROJECTS

JobAng | *React JS, Express, Node JS, MongoDB*   **January 2025**

- Built a responsive **job career portal** for freshers, with **role-based access** for candidates, recruiters, and admins.
- Designed features like job search with **filtering/sorting, real-time application tracking**, and personalized job recommendations.
- Integrated **JWT-based authentication** and optimized backend APIs for better performance and security.

ClassyShop | *Laravel, JavaScript, MySQL*   **October 2024**

- Designed and built a fully functional **e-commerce platform** from the ground up, complete with secure **user** and **admin** sections.
- Admin dashboard enables user, product, and sub-product management, while users can browse products, add items to a **dynamic cart**, and track selections.

TECHNICAL KNOWLEDGE

Languages: TypeScript, JavaScript, Java
Frameworks / Libraries: Angular, React JS, Node JS, Laravel
Database / Tools: MySQL, Azure, Git/GitHub
Testing / APIs: Jest, REST APIs

EDUCATION

Master of Computer Application (MCA)   **2022 – 2024**
KIET GROUP OF INSTITUTIONS   *Delhi-NCR, Ghaziabad, Uttar Pradesh*

Bachelor of Computer Application (BCA)   **2019 – 2022**
SCHOOL OF MANAGEMENT SCIENCES   *Lucknow, Uttar Pradesh*
