Software Developer with expertise in **JavaScript**, **TypeScript**, **Angular**, **React JS**, **Node JS**, and **Laravel**, building scalable, user-friendly applications.

EXPERIENCE

Software Developer | *Brain Technosys, Noida*   **January 2024 – February 2025**

Jr. Software Developer   August 2024 – February 2025

- Developed the frontend for a **CI/CD document management system** , a customizable **multi domain site** using **Angular**, **Material**, and **AES encryption**.Designed admin functionality **to create and manage custom loan service domains** and a **role-based modules**.

  Enabled seamless integration of new customer sites through an admin portal, implemented **Jest tests**, and monitored **Azure environments** to ensure production reliability.

- Refined the frontend of a **Data Sheet Management System** using **Angular**,introducing advanced **filtering, pagination, and export** options, improving data visualization and handling efficiency by **20%**.

Software Developer Trainee   January 2024 – August 2024

- Developed **PMS (Project Management System)**, a **full-stack Laravel application** with **role-based access**, **daily status reports**, **task management** and deadline tracking, reducing project turnaround time by **30%** and enhancing project collaboration and workflow management.

- Enhanced the company's **Lead Management System** by optimizing **functionalities**, such as custom lead filtering, detailed activity logs, and performance metrics tracking, improving **operational efficiency** and enhancing the overall **user experience** for business stakeholders.

PROJECTS

JobAng | *React JS, Redux, Hooks, Express, Node JS, MongoDB*   **December 2024**

- Built a responsive **job career portal** for freshers, with **role-based access** for candidates, recruiters, and admins.
- Designed features like job search with **filtering/sorting, real-time application tracking**, and personalized job recommendations.
- Utlized **Redux** for **state management** and MongoDB for efficient data handling.
- Integrated **JWT-based authentication** and optimized backend APIs for better performance and security.

ClassyShop | *Laravel, JavaScript, MySQL*   **April 2024**

- Designed and built a fully functional **e-commerce platform** from the ground up, complete with secure **user** and **admin** sections.
- Admin dashboard enables user, product, and sub-product management, while users can browse products, add items to a **dynamic cart**, and track selections.
- Implemented a store-like functionality where cart data is stored in the **database without payment processing integration**.

TECHNICAL KNOWLEDGE

Languages: TypeScript, JavaScript, Java
Frameworks / Libraries: Angular, React JS, Node JS, Laravel
Database / Tools: MySQL, Azure, Git/GitHub
Testing / APIs: Jest, REST APIs

EDUCATION

Master of Computer Application (MCA)   **2022 – 2024**
KIET GROUP OF INSTITUTIONS   *Delhi-NCR, Ghaziabad, Uttar Pradesh*

Bachelor of Computer Application (BCA)   **2019 – 2022**
SCHOOL OF MANAGEMENT SCIENCES   *Lucknow, Uttar Pradesh*
