Software Developer with expertise in **JavaScript**, **TypeScript**, **Angular**, and **Laravel**, building scalable, user-friendly applications.

EXPERIENCE

Jr Software Developer | *Brain Technosys, Noida*   **January 2024 – Present**
- Developed the frontend for **Sentridocs**, a **CI/CD document management system** using **Angular**, **Material**, and **AES encryption**. Designed **role-based modules**, added **OTP** and **camera features**, wrote **Jest tests**, and monitored **Azure environments** for development and production reliability.
- Managed the frontend of a **Data Sheet Management System**, refining **API data** with advanced **filtering** and adding new **functionalities**, including pagination, data sorting, and export options, improving data handling efficiency by **20%** and ensuring seamless data visualization for end-users.
- Created **PMS (Project Management System)**, a **full-stack Laravel application**, featuring **role-based access**, **daily status reports**, **task management** with multiple comments, checklists, and deadline tracking, reducing project turnaround time by **30%** and enhancing project collaboration and workflow management.
- Contributed to the company's **Lead Management System** by adding and optimizing **functionalities**, such as custom lead filtering, detailed activity logs, and performance metrics tracking, significantly improving **operational processes** and enhancing the overall **user experience** for business stakeholders.

PROJECTS

JobAng | *Angular, TypeScript, Material Design*   **December 2024**
- Developed a responsive job career portal for freshers, enabling role-based access for candidates, recruiters, and admins.
- Implemented advanced features like job search with filtering and sorting, real-time application tracking, and personalized job recommendations.
- Enhanced user engagement by integrating location-based job recommendations, improving job search relevance and accessibility.
- Utilized Angular Material components to create an intuitive and user-friendly interface, ensuring a seamless user experience across devices.

E-SHOPPERS | *Laravel, JavaScript, MySQL*   **April 2024**
- Designed and built a fully functional e-commerce platform from the ground up, complete with secure user and admin sections.
- Ensured seamless operations by integrating comprehensive features for inventory management, order processing, and customer engagement.

TECHNICAL KNOWLEDGE

Languages: TypeScript, JavaScript, Java
Frameworks: Angular, Material, Laravel
Tools: Azure, Git/GitHub
Testing/APIs: Jest, REST APIs
